Trust Award for Mitsubishi Electric

Mitsubishi Electric awarded “Trust Award of the Ventilation, Air conditioning and Refrigeration industry” (“Vertrauenspreis der LüKK”)

Ratingen, 4 July 2017 – To mark the occasion of the 50th anniversary of CCI Dialog GmbH the “Vertrauenspreis der LüKK” was awarded for the first time ever on 22nd June in Karlsruhe, Germany. In front of an audience of 200 guests, Mitsubishi Electric was honoured with first place in the category for Multi Split and VRF systems.

A jury of 536 members consisting of specialist planners, installers and project owners decided on which of the 70 manufacturers in the field of ventilation, air conditioning and refrigeration were awarded in each category.

The “Trust Award“ is given in recognition of customer satisfaction. With this reward the industry not only recognizes the technology and quality of a product, but also the satisfaction of customers with project planning and after sales service as well as reliability and the rate of recommendation, in other words, the trust customers have in a manufacturer.

At this point we would like to express our gratitude to all the partners, who have voted for Mitsubishi Electric.

Holger Thiesen

“We are delighted to be honoured with first place in the category for Multi Split and VRF systems. We are very pleased with the trust and confidence our partners place in our capabilities, and the quality of our work. The confidence they have invested in us only strengthens our resolve to always offer the best solutions and products to our customers and partners in future“, says Holger Thiesen, General Manager Living Environment Systems in the German Branch of Mitsubishi Electric.
